DESIGN & INNOVATION

EXPERIENCE & QUALITY

TECHNOLOGY IN YOUR HANDS

High performance reel with adjustable position from the cabin.

Vertical blades (optional) for rapeseed harvesting, side and central.

Copy and float system on the ground.

Equipped with wheels at the ends.

Outlets for large-sized material, suitable for high rapeseed.

ADVANTAGES OF THE SWATHER SW:

- Drying of the crop up to 2 times faster.
- Facilitates the work of the harvester.
- More homogeneous crop maturation.
- Less grain losses.
- Possibility of use in a multitude of crops.
